

COE Child Care Briefing Meeting Chat 11.29.21

From Irene Bonilla to Everyone:

Good morning everyone

From Kimberley Saxton to Everyone:

Is 8,000+ at 5-11 get us to 40%?

From Nora Caruso (she/her) to Everyone:

Yes, please.

From Erica Castillo to Diane Munoz (Direct Message):

I'm interested.

From Irene Bonilla to Everyone:

Hi Faris. I heard that public schools increment the quarantine days to 20 days instead of 14 for COVID exposure. I was wondering if we in the preschools area need to follow that rule too

Tricia Pastor-Cabrillo College to Diane Munoz (Direct Message):

Thank you for offering this option. I'd like to participate in training. We have ECE adult students who we test weekly before going into the classroom with a child.

From Michelle Hernandez to Everyone:

Are Covid test kits for home providers now or still preferred for centers?

From Christina Valentin to Everyone:

Can you still get a booster if you don't have your actual physical card, but a picture of the card on your phone?

From Lisa Hirahara- Cabrillo College Children's Center to Everyone:

Christina, Yes, my husband was able to do that at Inspire. They issued a secondary card with the booster information

From Nora Caruso (she/her) to Everyone:

Is it possible/ok to get the booster if you were vaccinated five months ago?

From Irene Bonilla to Everyone:

Thank you Faris!

From Lisa Hirahara- Cabrillo College Children's Center to Everyone:

Faris, is there a date when 16-year olds will be allowed to get their boosters?

From Lisa Hirahara- Cabrillo College Children's Center to Everyone:

Faris

From Larry Drury to Everyone:

Can you post the link to register for the booster, please?

From Nora Caruso (she/her) to Everyone:

How was the makeup of the group working on TK determined? How many participants are there and who's included?

From Lisa Hirahara- Cabrillo College Children's Center to Everyone:

Thank you, Diane and Faris.

From Nora Caruso (she/her) to Everyone:

I haven't heard anything about the group. Did I miss an email?

From Faris Sabbah (He/Him) to Everyone:

<http://sccoe.link/booster>

From Larry Drury to Everyone:

Thank you!

From Tricia Pastor-Cabrillo College to Diane Munoz (Direct Message):

Hi Diane,

From Tricia Pastor-Cabrillo College to Diane Munoz (Direct Message):

Please include me on the list of groups for TK. Thank you

From Tricia Pastor-Cabrillo College to Everyone:

For our Home-Based providers, where can they receive testing over the break?

From Nora Caruso (she/her) to Everyone:

Also, it would be good to have testing available before Christmas for safer family gatherings.

From Laura Tobias to Everyone:

LauraTobias@b2klaura@gmail.com

From Debbie Banuelos she/her/hers to Everyone:

Yes, it is taking long

From Troylene to Everyone:

Troylene Valenzuela - tval2@sbcglobal.net for legislative conversation

From Irene Aguirre to Everyone:

IreneAguirre@sirenita29@hotmail.com

From Discovery Preschool and Family Center to Everyone:

Stephanie Arguelles (Discovery Preschools) -
stephanie.scdiscoverypreschool@gmail.com

From Nora Caruso (she/her) to Everyone:

We have openings for one and two-year old as well.

From Ester Chávez to Everyone:

Es verdad no llaman para cuidado!!! It is true they do not call for care!

From Lisa Hindman Holbert to Everyone:

I think this is a meeting we need to have. This is a CRISIS for our field.

From Irene Bonilla to Everyone:

Something that is confusing for me is if one of the parents is positive for COVID we have to close the school immediately or we can wait until we know if the kid of that family is positive for COVID too?

From Nora Caruso (she/her) to Everyone:

Can people please put in the chat whether they are at capacity or if they have openings?

From Lisa Hindman Holbert to Everyone:

@Irene, we would have that child quarantine due to family positive.

From Irene Bonilla to Everyone:

Got it! Thank you

From Irene Aguirre to Everyone:

if the child comes every day at daycare (the kid plays with everyone at daycare) and is positive.

From Lisa Hindman Holbert to Everyone:

Irene, if you have a positive child, then you would need to contact county public health for guidance.

From Irene Aguirre to Everyone:

Thank you, Lisa.

From Nora Caruso (she/her) to Everyone:

Do you recommend that families call CDRC or contact you online? Link?

From Faris Sabbah (He/Him) to Everyone:

Irene, if a child is at your location during their infection period (48 hours before they tested positive or had symptoms or after they have symptoms) - Public Health will

consider everyone they spent time with (15 min over a 24-hour period) as a possible exposure. A student in a classroom means everyone in that classroom has been exposed. All non-vaccinated people will need to quarantine for 10 days from the date of last exposure. Public Health will give you more information

From Sita Moon to Everyone:

Here is a direct link to the referral request

From Sita Moon to Everyone:

<https://cdrc4info.org/child-care-referral-form/>

From Irene Aguirre to Everyone:

Thank you Faris

From Lisa Hirahara- Cabrillo College Children's Center to Everyone:

I think regularly sending the Google forms for centers to update their vacancies is a great idea to continue.

From Mary & Friends Childcare to Everyone:

Parents have been very appreciative when i have given them the link because they haven't known about it

From Tricia Pastor-Cabrillo College to Everyone:

Thank you, Larry!!! You are such a treasure to us all!

From Irene Aguirre to Everyone:

Thank you!!!

From Lisa Hirahara- Cabrillo College Children's Center to Everyone:

Thank you, Larry! You will be missed tremendously!

From Meghan Reilly to Everyone:

Thank you, Larry!!

From Veronica M Paniagua to Everyone:

Thank you!

From Faris Sabbah (He/Him) to Everyone:

Ask Diane if you need testing

From Irene Bonilla to Everyone:

Thank you everyone

From Ana Aguado (she/her) to Everyone:

Thank you all.
