We can talk about that at SPC.

It's my understanding Dr. Newell early on did issue guidance for child care. We we would need to get clarification on that.

any update to first five stipend?

From Lisa Hindman Holbert to Everyone: 10:43 AM

This is what is on record through our county health department, BEFORE CDPH issued guidance.

a. Ideally, children should be in stable groups of 6 or fewer children. However, if that is not possible, stable groups should have no more than 12 children ("stable" means that the same 12 or fewer children are in the same group each day). Children should not change from one group to another.

From Ramona McCabe to Everyone: 10:48 AM

Safety is fundamental. We need to make sure that we are advocating for support to sustain providers at safe levels
