

## **COE Child Care Briefing Meeting 9.27.21**

Good Morning, Buenos Dias

From Lily Hasebe to Everyone: 10:07 AM

Can we accept home test results from the testing kit through Cue Health (cuehealth.com)?

From Megan Baroni to Everyone: 10:11 AM

The center would not need to close down with a positive case?

From Erendira Guerrero (She, Her, Ella) to Everyone: 10:11 AM

Can you send a link to the document again?

From MSluggett to Everyone: 10:13 AM

What is the Measure letter?

From Maria Castro to Everyone: 10:13 AM

Can providers/teachers require proof of vaccine or negative test for visitors to the childcare?

From LaVeta to Everyone: 10:13 AM

Measure A

From MSluggett to Everyone: 10:14 AM

thanks

From Nora Caruso (she/her) to Everyone: 10:17 AM

Would be great if Measure A funds could be used for employee wages in addition to subsidies for parents. Subsidies for parents usually involve centers further subsidizing our rates which obviously comes at a cost to teacher wages.

Got my booster this weekend at CVS. Boy did I miss the efficiency of. COE's clinics!

From Crissy Roubal to Everyone: 10:19 AM

Do you know how soon for the booster Faris?

From Faris Sabbah (He/Him) to Everyone: 10:21 AM

santacruzcoe.org

From Sita Moon to Everyone: 10:21 AM

Can you talk about what close contact is? For example, if there is a positive test in a family member, but the child who attends the center does not have a positive test...

From Lisa to Everyone: 10:22 AM

CDSS is requiring back up from local public health for required closure. Could COE help facilitate this conversation with our public health

From Me to MSluggett: (Direct Message) 10:22 AM

Thank you - Mel.

From Megan Baroni to Everyone: 10:22 AM

If not, all children were exposed, can other unexposed children come to the center still, or does the center need to close for a period of time for cleaning and sanitizing?

From MSluggett to Everyone: 10:24 AM

Thank you Faris for the clarification:)

From Lily Hasebe to Everyone: 10:25 AM

Thank you for the clarification on the cue tests. I have a couple of parents "fighting" me on this.

From kimberleysaxton to Everyone: 10:25 AM

We are requiring all of our volunteers to be vaccinated.

From Lisa Hindman Holbert to Everyone: 10:25 AM

Correct, Farris

From MSluggett to Everyone: 10:25 AM

How many people are using parent volunteers in their centers?

From Teresa Maguire to Everyone: 10:26 AM

To be clear, if there is a child who gets COVID then all children in daycare are required to quarantine for 10 days or have a PCR test on day 5 after exposure then return on day 8.

From Faris Sabbah (He/Him) to Everyone: 10:26 AM

School Guidance

Calendar on page 21

[https://docs.google.com/document/d/1ZgfoJ59ZiRAY-EC8vNEce6l\\_QskZHxtc7yfbL39QY9A/edit?usp=sharing](https://docs.google.com/document/d/1ZgfoJ59ZiRAY-EC8vNEce6l_QskZHxtc7yfbL39QY9A/edit?usp=sharing)

From Tricia Pastor-Cabrillo College to Everyone: 10:26 AM

Cabrillo requires anyone "accessing" regular services (i.e. families coming daily to drop off/pick up child) are required to be vaccinated.

From Nora Caruso (she/her) to Everyone: 10:28 AM

Exposure means anyone who's been within six feet for more than 15 minutes per day.

From Lisa Hindman Holbert to Everyone: 10:29 AM

Within 24-hour period, it could be 2 days.

From Linda Orosco to Everyone: 10:30 AM

A child who has a positive exposure to a family member needs to stay home and test 5-7 days after the family member tested positive. If they test negative, then they can return. Most likely it'll be 10 days since their family member was tested positive. This is what I recently experienced with a student. They never got symptoms and ended up negative after a second test.

From Karyn Schmidt to Everyone: 10:34 AM

We had a child in our care whose sibling was exposed in their 2nd grade class. Does that affect us?

Does that sibling need to stay home too? no positive COVID with that family

From Maria Castro to Everyone: 10:34 AM

There was talk about new diagrams to help with deciphering protocol...is that happening?

From Nora Caruso (she/her) to Everyone: 10:38 AM

Here's a link to our COVID guidelines that I believe meet or exceed COE guidelines. Feel free to use it if it's helpful.

[https://docs.google.com/document/d/1pPbAxi3bYXrIM\\_XBqkZ5Ez0jBsfP-bV72L2MBipB70U/edit?usp=sharing](https://docs.google.com/document/d/1pPbAxi3bYXrIM_XBqkZ5Ez0jBsfP-bV72L2MBipB70U/edit?usp=sharing)

Exposed to someone exposed doesn't mean exposed!

From Karyn Schmidt to Everyone: 10:38 AM

Great, thanks!!

From MSluggett to Everyone: 10:43 AM

We got a Management Bulletin last week outlining these terms.

From Larry Drury to Me: (Direct Message) 10:53 AM

hi...I have to jump off here. I have to make an urgent call...sorry. we can talk more today on the ARP letter to the BOS....Thank you for understanding

From Faris Sabbah (He/Him) to Everyone: 10:57 AM

466-5900

From Crissy Roubal to Everyone: 10:58 AM

will be notified when booster is available

From MSluggett to Everyone: 11:00 AM

Is there any information from Faros about progress for ECE Teachers to be able to teach TK —next year. I think he was going to move this forward with legislation...

From Faris Sabbah (He/Him) to Everyone: 11:00 AM

Mostly PCR

From MSluggett to Everyone: 11:04 AM

Thank you so much Diane!

From Elvira Ruiz to Everyone: 11:04 AM

gracias
