From Heather Thomsen, Santa Cruz COE to Everyone 10:29 AM

I just put in the chat a one-page flyer with both vaccine and testing information

The most used, most recommended CO2 monitor, used by the probably 100+ IAQ experts, ventilation, industrial hygienist, and aerosol scientist I know and follow is the Aranet4. It costs about \$249 from various retailers. It is therefore affordable for many parents and armchair scientists too, comparatively. And small and portable. And highly accurate. <https://aranet.com/products/aranet4/>

From Sergio. Paredes to Everyone 10:30 AM

can you please reshare the flyer with both vaccine and testing information. I couldn't open the flyer

From Heather Thomsen, Santa Cruz COE to Everyone 10:31 AM

@Sergio- we will email the flyer today after the meeting.

From Sergio. Paredes to Everyone 10:32 AM

thank you so much

From Heather Thomsen, Santa Cruz COE to Everyone 10:33 AM

The website <https://cleanaircrew.org/> has a whole section on CO2 and monitors, and includes a coupon for the Aranet4.

Me to Sita Moon (Direct Message) 10:37 AM
