From Patricia Munoz to Everyone 10:09 AM

Does the FLU shot help with RSV?

From Amy Warren iPhone to Everyone 10:09 AM

What are the symptoms in older children? I know what they are in infants. Different?

Sorry with RSV

From Patricia Pastor to Everyone 10:10 AM

Hi Diana-I apologize if this is a duplicate question. Can you confirm whether having COVID is equivalent to getting a booster?

From Patricia Pastor to Everyone 10:15 AM

Also, any advice on reducing the spread COVID, hand, foot & mouth? We've had several cases....in infant and toddler rooms.

From Troylene, to Everyone 10:18 AM

If an adult or child has had RSV do they retain immunity?

From Sita Moon to Everyone 10:23 AM

Diana can you talk a little bit about Long COVID?

From Rosa Mendoza to Everyone 10:25 AM

I have a question. If parents and one child are sick with "sore throat & cough" and other siblings aren't showing any symptoms can they attend child care?

From Anne Striffler, to Everyone 10:31 AM

it might be a great idea to have all this information be shared at a parent/caregiver online zoom meeting? perhaps a small panel including pediatricians

From Kathryn Berens to Everyone 10:32 AM

Thank you

From Irene Freiberg to Everyone 10:32 AM

I also have problems with hearing people when they are masked. I have found that when masked, I speak louder, enunciate, and speak slowly. That has been quite helpful when communicating with others.

From Paulette Carney-UCSC to Everyone 10:37 AM

Great suggestions Tricia!

From Anne Striffler to Everyone 10:38 AM

the panel might include an immune system building foods and holistic ideas

From Christine's iPhone (2) to Everyone 10:46 AM

I use a headphone with a microphone! The kids love when I adjust the level of sound. They call me DJ Crissy!

From Irene Freiberg to Everyone 10:48 AM

Thank you, Diana, for sharing your knowledge and meeting with us every week.
