Paid Nonoperational Days

Paid Nonoperational Days for COVID-19-Related Closures

Between July 1, 2021, and June 30, 2022, child care and development providers were provided 16 paid nonoperational days for closures due to COVID-19-related reasons. The 16 paid nonoperational days were available for both licensed and license-exempt providers (including license-exempt in-home providers) serving children enrolled in the CAPP, CalWORKs Stage One, C2AP, C3AP, CMAP, and CFCC programs. Providers are no longer eligible to bill for nonoperational days for COVID-19-related closures effective July 1, 2022.

From Diana Hodge, she/her to Everyone 10:24 AM

Can we also find out which county this happened in? I think I understood that Eva stated "the county" ordered them to close. If we could find out more details about this @Maria Castro @SitaMoon & @DianeMunoz. I know we have some providers who work in multiple counties (MoCo & other neighbors). Please feel free to update me or reach out to me directly.
