

## COE Child Care Briefing Meeting 9.19.2022

Hi! Just checking in

We are both going to

Thank you!

From iPad to Everyone 10:06 AM

Good Morning to everyone

From Christine's iPhone (2) to Everyone 10:06 AM

Good morning. If a child is exposed to COVID do they need a certified test 3-5 days or can it be a home test?

From Faris Sabbah (He/Him) to Everyone 10:07 AM

HAND, FOOT AND MOUTH SYNDROME (COXSACKIE VIRUS) is a mild but highly contagious illness that is caused by the COXSACKIE VIRUS. Symptoms include sores in the mouth followed by a blistering rash on the hands and feet. Symptoms may also include a mild fever, sore throat, stomachache, and diarrhea. Consult your physician if symptoms appear.

From iPad to Everyone 10:08 AM

I have a question. Is it required to ask families for returning to Daycare if they travel out of the state's?

For a COVID Test?

From Nora Caruso (she/her) to Everyone 10:11 AM

Is the new booster only available on Saturdays at Inspire?

From Diana Hodge, she/her to Everyone 10:12 AM

Re: What kind of test to return? You as the facility can decide if you want to accept home-tests (OTC) tests, or if you only want to accept a lab-based test (like from Inspire.) So this is your decision, as the facility. The school districts are almost all insisting on Inspire tests.

From Faris Sabbah (He/Him) to Everyone 10:15 AM

**COVID-19 Vaccine Sites:** <https://santacruzcoe.org/vaccines/>

From Kimberley Saxton to Everyone 10:16 AM

My understanding is that we only need to report on the spot once we have three cases, but am I correct that every case still needs to be reported to licensing?

From iPad to Everyone 10:18 AM

Thank you for answering my question. Diane, Faris.

From Caitlin Clancy to Everyone 10:20 AM

Different infectious question...With an RSV exposure, how long do children need to be excluded?
